## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 13 February 2006 has been entered.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-11, 34 and 35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 4, "seller database" is not clear as the "database" is later recited to comprise a plurality of seller databases from line 4. It would appear Applicant may clear up this ambiguity by claiming a first database or master database if the application, as filed, supports such. Claims 34 and 35 contain similar issues.

Claim 1, lines 7, 9 and 11, "a rule" is not clear as the "rules" from line 3 now comprises a singular rule in three different instances.

It would appear Applicant may clear up this ambiguity by claiming a first rule, a second rule and a third rule. Claims 34 and 35 contain similar issues.

Claim 1, last line, "the rules" is not clear as to what is being referenced. The "rules" from line 3 or "generic rules" from line 5 may both reference "the rules" and this ambiguity must be cleared up.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-11, 34 and 35, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Greef et al., US 6,397,221.

Greef discloses an electronic commerce system comprising a seller database, e.g. Fig. 2, product identifiers, e.g. steps 114, 222, and a plurality of rules, e.g. Figs. 3, 12, and an error message, e.g. Fig. 6, 144, 198. Greef does not disclose the term content enhancement module. Official Notice is taken that content enhancement modules have been common knowledge in the electronic commerce art. To have provided such for Greef would have been obvious to one of ordinary skill in the art. It is noted that the rules, as understood, enumerated by Applicant appear to have been common knowledge when viewing Greef.

6. Further references of interest disclose database associate with business rules.  
Note attached PTO-892.
